WORK EXPERIENCE

Amazon Head of Operations / Domain Expert - Kepler Commerce Corporation

September 2023 - Present

Lead operations and AI product work in a fast-paced agency environment serving multiple client brands.

- Owns end-to-end Amazon advertising and Seller Central account management for multiple client brands: catalog health, pricing, inventory, and reporting under tight SLAs.
- Designed and helped build an AI-powered e-commerce services platform: specialized AI agents that automate expert Amazon work (keyword research, listing optimization, advertising, pricing, diagnostics).
- Domain expert and product owner for the platform: authored the playbooks and quality benchmarks that let the agents perform at a senior-specialist standard.
- Leads and coaches a team; runs capacity planning, SOPs, QA, and performance tracking that keep delivery on time as priorities shift.
- Drives internal product development as project manager: defines requirements in Jira, runs gap analysis, and ships fast with agentic CLI tooling (Claude Code, Codex).
- Selected for on-site work in China: trained local staff on Amazon workflows and scoped services with clients.

Advertising Specialist - Pioneer Square Brands

April 2022 - March 2024

- Led company-wide data migration and automation; built Domo reporting, boosting performance and operational efficiency.
- Owned Amazon Ads end to end and ran Google and Facebook campaigns.
- Managed channel strategy and budgets for three device-case brands; as the sole ads owner, delivered 30%+ YoY growth while cutting costs by more than 50%.

Associate Team Lead (Promoted) - OmniChannel Solutions

July 2020 - April 2022

- Led Amazon PPC operations for multiple brands (consumer electronics, personal care, food, pet).
- Built and standardized DSP processes and training, improving throughput and accuracy.
- Co-implemented new process-management software across brand umbrellas with PMs.
- Recognized as Specialist of the Month in the first month of being hired, for two consecutive months.
